

WAR SUPPLIES FOR BRITAIN WILL MOVE SOON

Lease-Lend Bill Voted by Senate Saturday Evening

May Reach Presidential Desk for Signature by Middle of Week

Washington, March 10—Final congressional action on the British aid bill appeared today to be but a matter of hours, and informed persons considered it probable that the vast supply of war materials thereby made available to Britain would start moving across the Atlantic within a few days.

Small naval vessels were reported to be the first defense articles slated for delivery immediately after the bill becomes law, with food supplies to follow.

Only House approval of relatively minor amendments inserted by the Senate before it passed the legislation, 60 to 31, Saturday night was needed to speed the momentous measure to the White House.

Speaker Rayburn and Chairman Bloom (D-NY) of the House foreign affairs committee predicted the approval would be given Tuesday.

Unless the House leadership runs into an unforeseen snag, the bill therefore will be ready for President Roosevelt's signature by mid-week.

Once it is signed into law the President is expected to make swift use of the authority thus gained to "sell, transfer title to, exchange, lease, lend or otherwise dispose of" guns, planes, ships, tanks and all other armaments and food supplies.

Will Ask Billions
Signing of the bill, too, will clear the way for him to ask Congress for the billions to carry out the program. He also may announce promptly just how the program will be administered.

The bill vests full authority in him. To decide broad policy questions, however, he is expected to work through a cabinet committee of Secretaries Hull, Stimson, Knox and Morgenthau, with Harry Hopkins, former commerce secretary, as aide. He is expected also to work through the Office of Production Management on matters of production, and through army and navy chiefs on the release of existing materials.

Some authorities estimated today that during this year and the next two the total cost of lease-lend assistance would substantially exceed \$10,000,000,000. Not only Britain but any other nations "whose defense the President deems vital to the defense of the United States" may benefit. These may include Greece and China.

Bulk to Britain
The great bulk of supplies, however, will go to beleaguered Britain with all speed possible. One authority said the first weapons to be furnished would be a number of navy mosquito boats, 60-mile an hour, torpedo-bearing craft and probably some sub-marine chasers. Plans for delivery to the British were reported completed and needing only the authority of law to be made effective.

The second major item in the administration's present plans for helping the British plans which Roosevelt has been forming with cabinet and other advisers for several weeks was reported to be foodstuffs, release of which the aid bill specifically authorizes.

Apparently the job of transporting the U. S.-made war equipment across the ocean will be up to the British.

The small naval vessels and other types of munitions to be sent to the British in the next few weeks will of necessity come from existing military and naval stores or those now being built for early delivery. The bill empowers the President to release up to \$1,300,000,000 of such equipment.

Billion in Cash
The other billions which the program will require for munitions manufacture must be requested of Congress by the President. One authority reported that he would ask within a short time after signing the bill, for at least \$1,000,000,000 in cash and \$1,000,000,000 in contract authority.

Even among those who fought the bill to the last ditch in Congress it was generally predicted that approval of such financial requests would be largely routine.

The Senate approved the British aid legislation shortly before 8 P. M. (7 P. M. C.S.T.) Saturday after debating it for 17 days and making a few changes in the House-approved version, including insertion of a provision that future army and navy appropriations cannot be used in the lease-lend program unless Congress has so specified.

Dixon High Defeats Sterling in Cage Tourney

Trim Traditional Foes, 27 to 25 in Final Saturday Eve

Coach L. E. Sharpe's Dixon high school basketball team met a jittery and self-assured Sterling high school team in the regional tournament final at the Sterling coliseum before a capacity crowd Saturday evening and won, 27 to 25.

The Dukes took the lead in the first quarter and never trailed throughout the game, although the score was tied three times. The victorious Sharpshooters go to Rockford for the sectional tournament, meeting West Rockford in the first game tomorrow evening. The defeated Sterling outfit goes to Moline for the sectional.

According to information received at Dixon high school today, 280 adult tickets will be sent here from Rockford for the Dixon-West Rockford game tomorrow night at West Rockford high school gymnasium. The section reserved for Dixon includes one half of the south side of the gym. Tickets may be obtained at the high school here tomorrow for 50 cents. The Dixon-West Rockford game is scheduled to begin at 7:30 o'clock.

Vaile & O'Malley Stock, Fixtures to be Liquidated

Announcement was made this morning that due to the death of the late George F. O'Malley all of the assets of the firm of Vaile & O'Malley must be liquidated. The firm has been familiarly known for many years as the V. & O.

The assets include all of the stock and fixtures which are in the store at the present time. Because of the tremendous amount of work necessary to prepare the store for the gigantic closing out sale, the doors will close at 5:30 o'clock this afternoon, and are not to reopen until Friday morning, March 14.

Wednesday's Telegraph will carry the opening advertisement, presenting a detailed list of values, which are certain to be exceptional, as the V. & O. store is already well-stocked with thousands of dollars worth of fine new spring merchandise.

It was pointed out by the management this morning that this is not a reduction sale, as every item—to the last necktie and glove—must be sold to liquidate the firm.

Dixon Youth to Become Merchant Marine Cadet

Frederick Eugene Bovey, son of Mrs. William F. Bovey of 403 East Second street, left here late last night for the Northwestern Challenger for San Francisco where he will enroll in a 30-day training course in preparation for four years of service to become a cadet in the United States Merchant marine.

Mr. Bovey, a graduate of Dixon high school, was one of five young men chosen from Illinois following physical and scholastic examinations held recently in Chicago. He was given a choice of serving either at the east, west or gulf coasts.

For the past two years the Dixon youth has been employed at the Montgomery Ward Company in Chicago.

Britain Turns Down Hoover's Plan to Establish Belgian Soup Houses

Washington, March 10—(AP)—The British government, reiterating determination to maintain a relentless blockade against Germany, has rejected Herbert Hoover's plan for establishment of soup kitchens in Belgium as a test of possible similar relief for other Nazi-occupied countries.

"No form of relief can be devised which would not directly or indirectly assist the enemy's war effort," said a statement made public yesterday by the British embassy.

Hoover who had received an advance copy of the statement, said in a reply released simultaneously that "the stark fact is that millions of children, and the weak, are threatened with starved bodies and death in the occupied lands unless relief is brought to them".

25 Violent Deaths Recorded in State Over Last Weekend

At Least 16 Fatalities Resulted From Automobile Accidents

(By The Associated Press)
With traffic accidents as the worst offender, death of violent nature claimed at least 25 lives in Illinois during the week-end.

No less than 16 persons died in auto crashes and many others were injured, an Associated Press survey showed today.

Two men, John Voss, 31, and Clarence Kones, 26, both of East Clinton, were injured fatally yesterday near Port Byron when their auto crashed through a guard rail, and plunged 25 feet down into a gulley.

Bernadine Verbie, 21, of Aurora, was killed and three companions were injured yesterday near Lisle when their auto crashed into a truck which Deputy Sheriff Lester Mosher said was parked on the highway. The injured were Virginia Verbie, a sister of the victim, Stanley Wedie, of Joliet, and Stanley Terlep, 28, a soldier stationed at Rantoul Field. The trucker, Ward L. Adrian, 25, Davenport, Iowa, was arrested on a technical charge of manslaughter. He later was released on bond and was ordered to appear at today's inquest.

CCC Member Killed
While walking along a road near Glenview, Chicago suburb, John W. Moore, 17, Paris, was struck and killed yesterday by an automobile driven by Harry Standard, 17, of Glenview. Moore was a member of a CCC camp near the scene of the accident.

Russell Calender, Pittsfield, and Edward Krusehnik, Springfield, died as the result of an auto accident near Pittsfield Saturday night. Police said the crash followed a tire blowout.

Dickey Bailey, 8, was injured fatally Saturday night in Sunfield when struck by an auto. Theron Brown, 13, was killed Saturday at Benton when his bicycle and an automobile collided. Cook county accounted for most of the other fatalities.

Auto-Train Crash
Mrs. Bert Visconi of Silvis was killed and her husband, well known boxing instructor and Sam Karben, 29 of East Moline, were seriously injured Saturday night in an auto-train crash on an East

Peoria Salesman Lands in Jail After Crash

Wayne H. Wredman, 45, a Peoria salesman, was fined \$100 and costs and placed on probation for a period of six months, when he pleaded guilty to an information which charged him with operating a motor vehicle on a public highway, while intoxicated, by Judge Grover Gehant in Lee County court today. The court ordered that the salesman be held in the county jail until the fine and costs are paid.

Wredman was arrested last evening about 8:30 o'clock by State Officer Edward Mahan, who was called to investigate a collision on route 2, about four miles east of Dixon. The officer reported that Wredman drove his car head-on into a machine in which Mr. and Mrs. Ernest J. Swan and daughter Emily of this city were passengers. Mrs. Swan sustained minor injuries and both cars were considerably damaged.

12 Killed, 19 Hurt in Brockton, Mass. Fire This Morning

Firemen Trapped Under Snow-Laden Roof of Strand Theater

Brockton, Mass., March 10—(AP)—Twelve firemen were killed and 19 injured early today when the snow-laden roof of the 30-year-old Strand theatre collapsed during a fire which destroyed the building.

The known dead were: Captain John F. Carroll, 52; William Murphy, 25; Daniel O'Brien, 45; Henry Sullivan, 45; Malcolm McNeil, 40; Matthew Geary, 48; Lieutenant Raymond A. Mitchell; Dennis Murphy, Roy H. Keraghan, George Collins, Martin Lipper, and Fred Kelley.

Approximately 25 men were trapped when the roof over the theatre balcony caved in with a terrific roar. Most were released quickly and given emergency hospital treatment.

Dixonites Injured in Auto Accident East of Aurora Early This Morn

(Telegraph Special Service.)

Aurora, Ill., March 10—T. M. Kelly, 310½ First street, Mrs. Vera Newman, 25, 316 Galena avenue, and Mr. and Mrs. Victor Erickson, 320 Jackson avenue, Dixon, were injured when the automobile in which they were riding, skidded on a slippery pavement on route 65, four miles east of Aurora at 2:30 o'clock this morning, and overturned. All were taken to St. Charles hospital here, the Ericksons being discharged after receiving first aid.

Kelly was the most seriously hurt, his injuries consisting of broken ribs and several severe cuts and bruises. Mrs. Newman also received several cuts. The accident occurred near the scene of two fatal crashes last week, one of Thursday and the second Friday.

Three Fugitives From State Hospital Caught

Two negroes and a white woman, patients at the Dixon state hospital, broke a window in their ward building late Saturday night and made their escape Sunday morning about 2 o'clock when the sheriff's office was notified that a woman believed to have been killed, was lying on the shoulder of the route 52 paving south of Woodstock.

Deputies Richardson and Schwank investigated the report, which was made by an Iowa motorist who discovered the woman lying alongside the paving.

and took the white woman in custody. She was suffering from cuts and bruises sustained when she crawled through the broken window. She was returned to the institution and later the deputies apprehended the two negro women along the highway about three miles north of Woodstock and delivered them to the state hospital.

Reynolds Wire Co. Installs \$60,000 Annealing Furnace

In keeping with the policy of modernization the Reynolds Wire Co., this week will put into operation a complete new system of annealing furnaces in the east end plant, which will represent an expenditure of approximately \$60,000. Propane gas will be substituted for fuel oil in the annealing furnaces, which will increase the capacity of the plant and improve both the efficiency in operation as well as the system of handling. It will also provide much better working conditions for the employees in the annealing department.

The Lee-Wilson company of Cleveland, Ohio, which specializes in annealing furnaces installation, is installing the new system, and it will be ready for operation about the middle of this week. Six annealing furnaces equipped with two belttype covers, which are transferable, have been installed and will be fired with propane gas. A storage tank with 17,000 cubic feet capacity, has been installed on the company's property on East River street, which will furnish adequate heat for the six huge furnaces.

The new installation has many outstanding advantages in the manufacture of wire cloth and represents the most modern development in the industry.

Howard Hunter Named Head Works Progress

Washington, March 10—(AP)—Howard O. Hunter of Illinois was nominated today by President Roosevelt to be Works Progress Commissioner.

Hunter has been acting commissioner since the death of Colonel Frank C. Harrington.

Pretty Prominent St. Louis Girl is Fiendishly Killed

Found Beaten, Slashed in Her Bedroom Early Sunday Morning

Kansas City, March 10—(AP)—Clumsily abandoned blood-stained weapons of death guided police today in the search for the killer who beat pretty Miss Leila Adele Welsh, 24, with a stone mason's hammer, slashed her with a butcher knife and fled with a deeply cut section of her hip.

The body of the socially prominent brunette, her pajamas in shreds, was found in her bedroom yesterday morning by her mother, Mrs. Marie F. Welsh, who went to awaken the daughter to attend church.

Miss Welsh, a 1937 beauty contestant at the University of Kansas City, had been slain during the night by a person who apparently entered through a bedroom window of the Welsh home. Her skull had been fractured in several places and her throat severely slashed.

The hammer was left at the foot of the bed. The knife's seven-inch blade was sticking in earth outside the open window. There were mud tracks on the window sill. Tucked in a neck wound was a man's shirt, minus its collar.

In the backyard of a home 100 yards away, police found the missing section of flesh. There, too, was a pair of blood-stained cotton gloves.

Not Criminally Assaulted
Police laboratory tests showed that Miss Welsh, granddaughter of a pioneer Kansas City real estate man, had not been criminally assaulted. A close check of valuables discounted robbery as the motive.

Miss Welsh, escorted by Richard W. Funk, an oil company employee whom she had been dating for five years, returned home at 1:30 a. m. Sunday morning. They had attended a circus sponsored by the police and had stopped later at a cocktail lounge.

After Funk left, she talked a few minutes to her mother, then tip-toed past her brother, George.

Nazi Air Raiders Give Britain Severe Bombing: Cafe Hit: Dancers Dead

The War Today!

BY DEWITT MACKENZIE

The fighting spirit of that ragged and hungry little Serbian army which hurled back the might of Austria in the World War is abroad in Yugoslavia to intensify the internal dispute over what attitude she shall adopt toward the Berlin-Rome axis in the Balkan crisis.

The report was circulating in Belgrade that the government would sign some sort of pact of amity with the nazis in the immediate future. That seems likely, but the indications are that Yugoslavia is trying to find a middle course and that the purpose of such a pact would enable her to stall.

There is a sharp break between the non-interventionists and those who would go all out and cast their lot with the Anglo-Allies in an effort to halt Hitler. Thus is held open for the moment the question of how far the great Yugoslavia—which is the offspring of tiny but valiant Serbia—will feel able to maintain her freedom of action pending developments.

So long as this position exists, and so long as the fire of independence continues to burn fiercely in Greek hearts, there is always the possibility that the whole Balkan peninsula will leap into flames.

Yugoslavia's problem is far from easy, since she is all but surrounded by axis forces. A direct challenge to Hitler might mean her quick extermination as a nation.

Still, there are many Yugoslavs who are taking the position that defiance of Germany would be a fair gamble, though admittedly it would take a mountain of courage to make the play. The Fuehrer has been trying his best to avoid a major war in the Balkans, and should Yugoslavia take a fighting stand, or even a firm attitude backed by her powerful army, it might put the brakes on the Nazi war machine. It would at least greatly

Clearing Sky Out Mild Thaw Aiding New York Dig Out

(By The Associated Press)

Clearing skies and a mild thaw helped the eastern seaboard emerge today from a three-day snow-storm which recalled the famed blizzard of '88, just 53 years ago.

At least 35 deaths were attributed directly or indirectly to the storm including 12 firemen who were killed when the snow-laden roof of a 30-year-old theater collapsed in Brockton, Mass. during a fire which destroyed the building.

The snow blanket ranged in depth from 16 inches in some parts of New York state to 10 inches in the nation's capital.

New York City officials gambled on rising temperatures to help clear the snow-clogged streets and effect an estimated saving of \$1,500,000, the cost of hiring emergency help.

"Fair and warmer" and "slowly rising temperature" forecasts were general throughout the area. Middle-western states reported clear, spring-like weather.

First of Illinois 33rd Division Soldiers Established in Camp Forrest

Camp Forrest, Tenn., March 10 (AP)—The advance detachment of Illinois' 33rd division, which will bring 12,000 troops to Camp Forrest this month for a year's active army duty, arrived today, and Colorado's 168th field artillery raised its total of troops here to 450.

Two motor caravans, ending a seven-day journey, brought 200 detachment of 59 had come to prepare the regiment's quarters. Today's 200 were from Denver.

The rest of the 168th's 950 enlisted men and 98 officers will arrive tomorrow.

With Tennessee's 181st and 191st field artillery, which moved to camp last week, the Colorado troops will form the 75th brigade. Illinois troops, however, will occupy nearly three-fourths of the 1,300 buildings constructed on 85,000-acre Camp Forrest.

The 12,000 now in the division will be increased to 18,000 by selectees. The approximately 1,000 in each of the two Tennessee regiments and Colorado's regiment will be raised to more than 1,500 by the same method before troop maneuvers in June.

Maj. Gen. Samuel Lawton, 33rd division commander, is scheduled to take command of the camp tomorrow.

Various units of the division will arrive here virtually every day between now and March 26, when the final detachment moves in. Five-hundred men, most of them from Chicago, were expected today.

Russia Masses Army at Turkish Border: Other War News

BULLETIN

London, March 10—(AP)—A broadcast on the wavelength of the Belgrade radio, heard here today, said that the German minister to Athens had handed the Greek Foreign Minister "some proposals".

No details were given, but the radio said Germany expected Greece to make her decision soon.

(By The Associated Press)
One of Premier Mussolini's editorial spokesmen asserted today that the British aid bill was "open intervention in the war against the axis" and threatened the possibility of "many disagreeable surprises to England and the United States in the Pacific."

This assertion, made by fascist editor, Gayda, apparently referred to action by Japan in the Far East.

Passage of the bill, he said, might eventually bring the Rome-Berlin-Tokyo axis into play against the United States.

Gayda declared "Roosevelt's gesture is a deliberate, unprovoked move toward war" in violation of the Hague convention.

On Italy's central Albanian war front, the Greeks reported heavy losses among Il Duce's fascist legions in a smashing three-day offensive by Greek columns.

Fierce aerial activity was reported over the battlefield; the fascist predicted that a big spring offensive by Italy was imminent; while in Athens, Greece's premier Korizis declared Greeks were "determined to die rather than be subdued."

France Rebels

France rebelled against the British blockade today, threatening to convoy and arm French merchant ships if the blockade continued; and in London, informed quarters indicated that it would be enforced regardless of French counter-measures.

In the Far East, new danger signals arose. British authorities in Singapore warned residents to be ready on 48 hours' notice to move from "areas where it is expected fighting will take place if Singapore is attacked from the sea."

Japan is reported to have massed a strong fleet of warships within quick striking distance of the British naval stronghold, a \$150,000,000 citadel at the crossroads of the China seas and the Indian ocean.

France's Vice Premier, Admiral Jean Darlan, made a surprise statement defying the British blockade. Jean Achard, secretary of food supply, declared that 18 million bushels of wheat from the United States were urgently needed for unoccupied France.

Darlan described the blockade as "imbecile" and asserted: "I will let nothing stand in the way of the French people's eating."

108 Freighters Seized

Once the mistress of Europe's second most powerful navy, France still has several strong units of her fleet in operation—enough to form a serious threat to British sea power if France should decide to fight. The Vichy government declared that 108 French merchantmen have been seized by the British since the French-German armistice last June.

Greek troops still struggling to take strategic Tepelin in Albania were reported today to have smashed two Italian divisions, taken 2,350 prisoners, and killed or wounded two members of Premier Mussolini's official family in three days' fighting.

Captured Italian officers said Premier Mussolini inspected defenses in the sector just before the Greeks launched their offensive Friday.

These officers also said Giuseppe Bottai, Italian education minister, and Tullio Cianetti, undersecretary of corporations, were casualties of the fighting.

The two had left their Rome posts, with other Italian officials, for the Albanian front and were members of the Julia divisions, which with the Terrara division, was said to have suffered heavily

France Threatens Convoys for Food to Beat Blockade

Vice Premier Says Duty To See That People of His Nation Eat

Vichy, France, March 10.—(AP)—Vice Premier Admiral Jean Darlan informed American press representatives today that French ships would be convoyed if the British blockade of France continued.

Darlan, who with Chief of State Marshal Philippe Petain and Secretary of Food Supply Jean Achard called the press conference, declared:

"If the British continue this blockade, which I consider incredible, I will be obliged to ask permission to provide arms and protection for our merchantmen. I will let nothing stand in the way of the French people's eating."

Petaim said the Germans had released 2,000,000 quintals (220,400 tons) of wheat out of 2,700,000 which had been requisitioned for the German army.

Darlan said he considered the blockade against Germany useless and declared he had told that to U. S. Ambassador Admiral William D. Leahy last night.

A few boatloads of wheat will not affect the outcome of the war, he said.

Need Wheat from U. S.

Achard read a prepared statement in which he said 5,000,000 quintals (553,488,000 bushels) of wheat from the United States were needed for the unoccupied zone of France.

The French government has communicated to the American government the "urgency of obtaining and transporting" that amount of wheat, he said.

The wheat, the secretary continued, would go to the unoccupied zone only, not to the Nazi-occupied area, and would be distributed under American supervision.

"I don't want to consider what would happen if we were obliged to reduce bread rations to 200 or perhaps 150 grams (7 ounces or 5 ounces) daily," Achard said, adding that the French are the world's heaviest bread eaters.

Petaim, Darlan and Achard, who were serious business-like throughout the interview, remarked on the arrival of the Red Cross ship Cold Harbor at Marseilles with food and clothing.

Darlan remarked that he did not know how the British expected to blockade Germany by blocking French Indo-China and in a truculent tone repeated: "My duty is to see that the French eat."

Crop Below Normal
Achard said the 1940 harvest amounted to no more than 42,000,000 quintals (4,512,000 bushels) of wheat of mediocre quality against a normal harvest of 75,000,000 quintals.

The government announced that the French merchant ship Ville de Majunga had been captured by a British cruiser south of Capetown, making 108 French merchantmen seized by the British since the French-German armistice, 14 of them since the start of this year.

London, March 10.—(AP)—The British intimated today they would continue to enforce their sea blockade regardless of any protection for French merchantmen.

Informed circles said they were without official word of the announcement by Admiral Jean Darlan, French vice premier and foreign minister, that France intended to convoy merchantmen moving supplies to the French people.

Illicit Traffic in Fish Must Be Stopped Says Dept. Director

Springfield, Ill., March 10.—(AP)—Conservation Director Livingston E. Osborne announced today department investigators recently seized hoop nets containing several thousand game fish from the waters of the Chautauqua drainage district near Havana.

Osborne said the nets, which evidently had been set to trap game fish, were in most instances without tags required by law and several of illegal mesh. Department investigators chopped through the ice to raise the nets. The fish, adult size, were released.

The conservation director said the full force of the department's law enforcing division would be utilized in halting illegal seining and the illicit traffic in game fish.

Importation of Watches to United States Grows

Chicago.—(AP)—The Elgin National Watch Company reports a net profit in 1940 of \$1,540,149, equal to \$3.85 a share, compared with \$1,214,501, or \$3.03 a share, in 1939. President T. Albert Potter said that importations of watches into the United States during 1940 were more than any year prior to 1939 and predicted that "unless there is a drastic change in the European situation it is to be expected that this ever-present competition will continue."

KNOW YOUR MONEY And Avoid Loss Due to Counterfeits

TO THE AMERICAN PUBLIC:

The United States Secret Service and your police wish you to KNOW YOUR MONEY, and through this nation-wide educational program aim to suppress the major crime of counterfeiting.

CHIEF WILSON

Observance of these few simple rules will safeguard the pocketbooks of the Nation. Therefore, I urge every person to carefully study the rules and to follow them.

The United States Secret Service is grateful for the whole-hearted cooperation which it has always enjoyed from your police officers, and we now solicit the assistance of every American citizen in this effort to prevent crime through this modern method of education, instead of the age-old method of prosecutions and imprisonment.

Frank J. Wilson

Chief, U. S. Secret Service.

HOW TO DETECT COUNTERFEIT BILLS

1. KNOW YOUR MONEY
2. COMPARE the suspected bill with a genuine of the same type and denomination. Observe carefully the following features:

(a) PORTRAIT: Genuine is lifelike, stands out from oval background which is a fine screen of regular lines; notice particularly the eyes. The counterfeit is dull, smudgy, or unnaturally white; scratchy; background is dark with irregular and broken lines.

(b) SEAL: On genuine, sawtooth points around rim are identical and sharp. On counterfeit, sawtooth points are usually different; uneven; broken off.

(c) SERIAL NUMBERS: Genuine have distinctive style; firmly and evenly printed; same color as seal. Counterfeit, style different; poorly printed; badly spaced; uneven in appearance.

(d) PAPER: Genuine bills are printed on distinctive paper containing very small red and blue silk threads.

3. RUBBING a bill will NOT prove whether it is genuine or counterfeit; ink will rub off of either.
4. REMEMBER—NOT ALL STRANGERS ARE COUNTERFEITERS, BUT ALL COUNTERFEITERS ARE LIKELY TO BE STRANGERS.

TYPES OF CURRENCY

The only three types of currency printed by the United States Government for circulation are:

1. FEDERAL RESERVE NOTES, which bear GREEN serial numbers and seal.
2. UNITED STATES NOTES, which bear RED numbers and seal.
3. SILVER CERTIFICATES, which bear BLUE numbers and seal.

PORTRAITS

Denominations of bills may be identified by portraits, as follows:

WASHINGTON	on all	\$1.00 bills
JEFFERSON	on all	\$2.00 bills
LINCOLN	on all	\$5.00 bills
HAMILTON	on all	\$10.00 bills
JACKSON	on all	\$20.00 bills
GRANT	on all	\$50.00 bills
FRANKLIN	on all	\$100.00 bills

Northern Illinois Baptists Convened in Dixon on Friday

Friday the First Baptist church of Dixon was host for an association meeting that was attended by about 350 from the northern part of the state. Eighteen churches were registered for the meeting which began at 3:00 p. m. and was under the direction of Dr. Bell of the Chicago office of the Northern Baptist Convention.

Dr. Beynon of Buffalo, New York delivered a splendid sermon on the Faith of Christians in these troubled times. Dr. Howard of the American Baptist Foreign Mission Board, who is the son of a former pastor of the Dixon Baptist church delivered an address on the work of the Baptists in the China and Burma fields which have been so severely affected by the wars in that part of the world.

Dr. Prochaska the former head of the Baptist college in Prague, Czechoslovakia, spoke on conditions in his country. He came to America to attend the Baptist World Alliance in 1939 and when he attempted to return, his friends would not let him sail because of the fact that he was marked for a German concentration camp if he reentered Germany. His family is in the land occupied by Germany and he is unable to communicate with them. Dr. Prochaska stated that over 80% of the people in concentration camps in his country are the Christian leaders whose spirit and teachings the Germans are trying to crush.

Churches Challenged
Dr. Schell, the director of the Baptist state convention for Illinois, spoke about the great need for Christian work and influence at the several military training centers established in Illinois at Fort Rantoul, Rockford, Savanna and Fort Sheridan. He stated that thousands of the best young men in the land are being placed in these camps and that the taverns and gambling halls had already taken up their places outside these camps but that the church organizations were without adequate funds to meet this sudden and tremendous responsibility. He challenged the churches to meet this responsibility by speedily providing the funds and the men for this task.

At 5:45 p. m. the ladies of the church served a dinner for 200 guests of the meeting from out of town and at 7:00 p. m. the meeting was again convened where after a song service Dr. Beynon and Dr. Howard again delivered

stirring addresses to a congregation that taxed the capacity of the church. Those who attended the meetings were stirred by the messages and all agreed that in this war-mad and fast changing world the only sure and solid things of life were God's promises and faith in Him.

Illinois Senators Split Aid-to-Britain Measure

Washington.—(AP)—Illinois' senatorial vote was split Saturday night when the senate approved the administration's British aid bill, 60 to 31. The senior senator, Scott W. Lucas, Havana Democrat, was among the 49 Democrats, 10 Republicans and one independent who voted for the bill. His Republican colleague, C. Wayland Brooks of Chicago, cast his vote in opposition to the measure along with 16 other Republicans, 13 Democrats and one progressive.

Value of production of the aircraft industry of the U. S. in 1940 was \$544,400,000, or more than double the 1939 figure.

WHY A CRADLE PHONE?

Your listener can hear you more clearly and you can hear him more clearly when you use a Cradle Phone.

This is due to the fact that better acoustic properties are built into both the Receiver and Transmitter of a Cradle Phone than in other types.

The extra cost is trivial and you have a phone which you are proud to have your friends see.

Better order one today. War demands are already making it more difficult to have them available.

Peruvian Pilots Eat Honey for Want of Oxygen

Lima, Peru.—(Correspondence of the Special News Service)—Indians of the highlands of Peru provided an answer for airplane pilots who wanted to do something about oxygen-want at high altitudes.

Transport pilots on some of the inland Peruvian runs were in the habit of "smoking oxygen" at altitudes of 18,000 to 20,000 feet to overcome the feeling of giddiness which a lack of oxygen induced.

This had its drawbacks. If he took too much gas, a pilot was likely to have an "oxygen jag." Some pilots complained that long periods of inhaling oxygen made them ill.

One day a pilot discovered that Indians working in the Andes at altitudes of 15,000 feet or more were in the habit of eating honey as they labored. He investigated. The honey, strangely enough, had an effect similar to that of oxygen.

As a quick-energy food, it overcame the momentary debilitating effects of high altitudes.

It is not uncommon for airmen regularly engaged in Andean flying now to go to a hospital once a month for injections of a glucose solution to increase the sugar content of their blood. They combine that with eating sweets while flying and taking sniffs of smelling salts.

A few weeds grow in every garden

Among the thousands of decent law-abiding beer retail establishments in America there may be a few disreputable "joints."

While it is the brewers' responsibility to brew good beer and the retailers' responsibility to sell beer under wholesome conditions, nevertheless the brewing industry is concerned about these undesirable places and wants them cleaned up.

We want them cleaned up because they endanger your right to enjoy good

beer... and our right to make it.

We want them cleaned up because they endanger the 73,769 jobs and \$67,820,548 payroll created by beer in Illinois since re-legalization. Beer contributed \$2,922,136.00 last year in taxes in this state.

These benefits are worth preserving. You can help us, if you will, by (1) patronizing only the reputable, legal places that sell beer and by (2) reporting any law violations to the duly constituted law enforcement authorities.

Clubwomen View Famous Gardens

Washington, the mecca of the American tourist and the shrine of the nation's history, was pictured Saturday afternoon for members of the Dixon Woman's club in a program of beauty and interest presented by Mrs. William Gary Brown of Chicago, widely-traveled tour conductor and lecturer. Mrs. Brown's lecture, "Parks and Gardens of Washington and Virginia," was presented at the Loveland Community House, and was generously illustrated with colored slides.

In addition to several excellent views of the big white city on the banks of the Potomac river, the clubwomen saw Martha Washington's garden at Mt. Vernon, the cherry trees around the tidal basin in Potomac Park, the Old Soldiers' Home, Arlington, the Gardens of the Franciscan Monastery, Wakefield, Annapolis, and the newly-reconstructed Williamsburg in Virginia. The speaker is national president and founder of The Grandmother's club, and is editor of the club magazine, "The Autumn Leaf."

Special music for the afternoon was furnished by nine high school girls, directed by Miss Carolyn Bergstedt. Their numbers were "Message of the Bells," "The Butterfly," "The Night Song" and "Mother Goose Suite."

The program was concluded with a talk on the flag code by Miss Fannie Murphy.

Tea was served at a St. Patrick's table in the ladies' lounge. Mrs. Earl Auman, the club president, and Mrs. A. E. Martin poured.

Rockford Woman Speaks in Dixon

Members of the Foreign Travel club heard Prof. Elizabeth Brush, head of the history department at Rockford college, relate her experiences in England at the beginning of the second World War in 1939 at the March meeting of the club Friday evening at the Loveland Community House.

Having spent the summer of '39 doing research work in Paris, the Rockford instructor decided that it would not be safe to remain after August, as she might be unable to take all of her luggage with her, including many photographs of letters. To prepare for her return journey to the United States, she went to England, where she resided at a hostel some miles from London.

At the hostel, she found many people remaining after vacations in the belief the location was safer from air raids. "People were not yet used to the idea of war," Professor Brush stated. "They were stunned by the Hitler-Stalin pact, as they did not want war and were not prepared for it."

Miss Brush discussed changes which have taken place in the British government since 1939, and told of Churchill's warnings and his rise to power. She said that England is a united nation; France is not. "While most of the French people were opposed to war and Germany," she declared, "they trusted the Maginot line, and there were many who were willing to see Hitler dominate."

A question and answer period followed the talk.

GEORGE WASHINGTON SAID:
"Excessive partiality for one foreign nation and excessive dislike of another cause those whom they actuate to see danger only on one side, and serve to veil and even second the arts of influence on the other. Real patriots who may resist the intrigues of the favorite are liable to become suspected and repudiated by those who would support the apoplexy and confidence of the people to surrender their interests." From the Farewell Address.

The Young Men Are All Right

There is no sense in swooning into a great state of panic because of the rather high percentage of rejections in the draft calls. Considerable more study, and specially comparative study, needs to be given the figures before we need conclude that young America has declined into a state of decrepitude.

That is not to say that "all's right with the world," or that the health of youth is all it should be. It isn't, and it never will be. There is plenty of room for improvement. But there is no reason for panic.

True, there are a great many rejections for failure to meet the rather high standards the military services have set. In some cases it has run as high as 25 per cent. Offhand, that looks bad. It looks worse than in 1917-18. But is it?

Isn't it just possible that standards are higher now? Certainly the necessity for raising a huge army immediately is not as great. The standard can be, and probably is, somewhat higher. X-ray and other laboratory examining methods and techniques are improved, and probably catch a higher percentage of defects, many of which were formerly overlooked. Further, plenty of men with flat feet or a slight shortage of perfectly-matched teeth, are reasonably healthy in spite of that.

The Vichy government in France is now adding poor physical health of Frenchmen to the many already-revealed causes of France's downfall. It is pointing out that for many years mortality in France never got below 15 per 100, compared to 12 in England, 11 in Germany, and 10 in the Scandinavian countries. Well, in the United States latest figures are between 10 and 11.

French rejections for military service in 1934-35 were about 20 per cent. In the United States it is questionable whether, over the whole country, it will prove so high, especially if you would consider nearly

a million volunteers already in service who do not show up in the draft figures.

Further, the need for a great mass land army is not nearly as great here as in France, and there seems no doubt at all that by lowering standards only slightly a great many now being rejected could be passed, and still make excellent soldiers.

We're not urging smug self-satisfaction. We have not as yet produced a race of men capable of passing 100 per cent the rather specialized requirements of the military. But it is not wise to jump from that to the conclusion that the national health is not sound, when there is excellent evidence that it is the best ever.

All of which does not minimize in the slightest our job, which is to make it still better.

Greece, 'Unhappy Orphan of the Storm'

"Greece is without a friend on the Continent," wrote a German newspaper after Bulgaria had yielded and let the grey legions flow on down through her territory to the Greek border. "Unhappy orphan of the storm," continued the Teutonic weeper of crocodile tears.

Without a friend on the Continent? Nay, not so. Whoever men are free, and wherever men remember freedom, there Greece has friends. And there are such men on the Continent of Europe, as on all continents.

The number of governments friendly to Greece may be declining. It has been reduced by a round dozen since Hitler began his advance. But to say that Greece is without a friend is not true. Where free hearts beat, there are friends of Greece.

This term, friendship, is a loose word to use in international relations. Friendship is a personal thing. Man may be friend to man, but the relationship between those great organizations of people which we call nations, and other vast masses of people, may be something more or something less, but it is not friendship. To use the word is convenient, but scarcely accurate.

Czechoslovakia revolves in the German orbit, but are the Czechs "friends" of the Germans? Whatever may be the relationship of Poles, Belgians, Dutch, French, Norwegians and Italians, to the Germans, we suspect that it is less than friendship. Are the Germans and Russian peoples friends? The Japanese and Russian? It seems doubtful.

Perhaps we need a new word to define the relationship between peoples. The bulk of one people feel kindly disposed toward the bulk of another people; they may have joint ambitions and projects; considerations of safety or advantage may draw them together; but friendship is a sacred term which applies to none of these things.

Greece has few allies today, perhaps; there are few armies ready to spring to her assistance or lend a helping hand while she fights so stoutly for her independence. It is entirely beside the point to argue that Greece "favored" Britain rather than Germany; to say she refused to climb aboard the noisy and gaudy band-wagon now lumbering across Europe. She chose to remain Greece, and to fight him who tried to compel her by force.

Greece is no friendless orphan of the Nazi storm. On every continent, including the new Dark Continent of Europe, she has friends in plenty. Not so many government hierarchies, perhaps, but individuals, people, men and women who admire and love her for her courage to fight for her own.

Those, too, are friendships, and they may yet bring a powerful weight to bear in the scales of history.

House Committee Voice Okay for Propaganda Bill

Washington, March 10—(AP)—The House rules committee gave legislative right of way today to a bill to provide \$1,500,000 annually to operate the Office of Government Reports.

The committee action followed a stormy session at which some Republicans charged the office was a government "propaganda agency" set up to "suppress the news."

Representative Bender (R-Ohio) protested that the bill would make a permanent agency of the office which has been operated heretofore with emergency funds. It serves as a clearing house for information concerning Federal activities.

The bill was supported by Representative Cochran (D-Mo.) who said "the whole question boils down to whether we want to give the President the help he says he needs."

"Will Nazify U. S."

Chairman Sabath (D-Ill.) of the rules committee said the work of the office had increased "tremendously" and added that funds appropriated for it "might be a good investment" to counteract "nazi propaganda activities" in this country.

"If you're looking to compete with the Nazi government this is a good way to do it," retorted Bender. "This bill will nazify the United States."

The Ohioan contended the Office of Government Reports would impose a virtual censorship on government information by requiring departments to clear all information through it.

Skidmore Faces 15 Years in Federal Cell and Big Fine

Chicago, March 10—(AP)—The date March 21 is an important one for William R. Skidmore, Chicago junkyard proprietor who stands convicted by a federal court jury of evading \$347,409.73 in income taxes.

It is on that date that counsel for the 68-year-old country squire is scheduled to appear before Judge Philip L. Sullivan to argue motions for a new trial.

Skidmore, self-styled conservative businessman but government-pictured "protector" for gamblers in the Chicago area, was convicted Saturday on three of six counts in two indictments which charged him with tax evasions totaling \$505,766.11 over a six-year period.

The jury found him guilty, however, of evasion only in the years 1936-37-38, deciding that he had not evaded taxes on income for the years 1933-34-35.

Under the verdicts returned Skidmore faces a maximum penalty of 15 years' imprisonment and fines totalling \$30,000. The court delayed sentencing, however, pending the new trial arguments.

The trial which lasted for two weeks, was heard by a jury of eight women and four men.

Dies Seeks to Remove Communists and Nazis From Federal Payroll

Washington, March 10—(AP)—Representative Dies (D-Tex.) said today he would call on President Roosevelt to initiate a "nationwide drive" for the discharge from government service and defense industries of persons active in political organizations under control of totalitarian powers.

The chairman of the house committee on un-American activities also said he would urge the president to insist that labor unions oust Communist and Nazi leaders under penalty of not being recognized for collective bargaining purposes.

If his suggestion to the president fails to bring results, Dies said, he either would introduce legislation to force the discharge of such persons or would offer a resolution stating that it is the policy of congress that such changes occur.

New York Journal and American Part of AP

New York, March 10—(AP)—The New York Journal and American, an afternoon daily published by William Randolph Hearst, Jr., today became a member of the Associated Press.

As the same time the 100-year-old Brooklyn Daily Eagle, published by Frank D. Schroth, relinquished its membership in the cooperative newsgathering organization.

The new member is a consolidation, in the evening field, of the New York Evening Journal and the New York Morning American. When the consolidation was effected, four years ago, the American transferred its Associated Press morning membership to the Daily Mirror, with which it has combined in the morning field, but retained its Sunday morning edition.

NEWS BEHIND THE NEWS

By PAUL MALLON
(Distributed by King Features Syndicate, Inc. Reproduction in whole or in part strictly prohibited.)

Washington, March 9—Bigger aid to China is coming—let the Japs bristle or not. The president's special Far Eastern emissary, Laughlin Currie, is due here Tuesday with a personal report on China's expenditure of \$100,000,000 already advanced. From cabled reports that have come back from him to the state department, it is apparent he will recommend further substantial advances. The amount will be determined by Roosevelt's negotiations with his leader, Jesse Jones. The news may be timed to Matsukata's meeting with Hitler.

Roosevelt said he had a list of slacker manufacturers who would not cooperate about two weeks ago, but a week ago he would say only that the plants had not been taken over and he'd not know whether the list was still under study. As near as I can ascertain he was spoofing both times.

Defense authorities say they have no knowledge of a list of non-cooperators. Apparently they were dealing two weeks ago with a few particularly tough babies whom they could not bring around. When the president's threat reached the press, they came in easily.

That British crisis which was coming in 60 to 90 days is just about due. Cabinetiers Hull and Knox forecast it privately as far back as mid-December, and War Secretary Stimson predicted it publicly January 17. Apparently they are still sticking to their story although some of the military experts behind them are becoming doubtful about it.

The latest code messages from Europe now predict the Hitler invasion on blow is to fall within 3 or 4 weeks. It is not likely to be tried until the Balkan threat is ended or after the long winter nights wane into brief periods of covering darkness. Ideal night weather should be provided around April 1.

But no one here is sure now invasion will be attempted. The British have noticed Hitler's claims on submarine sinkings are being exaggerated three-fold. He seems to be trying to lead his people to believe he can win the war by blockade without invasion. This is the new line he also hinted openly in his last speech.

His communiques lately have also been fibbing on damage done by the British bombing in Germany. A Berlin communique said only 2 or 3 people were killed and slight damage done in the Dusseldorf raid, but everyone at Dusseldorf could see the damage was far more extensive. Obviously he cannot fool his people indefinitely with these short range tactics.

Reasoning along this line, the military thinkers here chase themselves back to their original conviction that the least he can try this spring is an all-out attack against Britain to test definitely whether invasion would be feasible.

It was not administration pressure which prevented the filibuster on the lease-lend-sell-give away bill. The opposition just could not muster the strength for it in their strategy meetings. Sen. Taft of Ohio, for instance, said flatly that he had no tolerance of filibusters. Not even 10 or 12 senators could be gathered together to agree to speak indefinitely. Calm counsel within the opposition was obviously mindful that the employment of such a desperate weapon would make the mud slinging that has gone on so far seem like child's play and tear the country apart.

University Board to Discuss Budget With Commission

Springfield, Ill., March 10.—(A P.)—Members of the University of Illinois board of trustees will meet tomorrow at the executive mansion with Governor Green and the legislature's budgetary commission to discuss the university's request for a \$1,323,640 appropriation increase.

Dr. A. C. Willard, president of the university, disclosed in Champaign that the governor had invited the trustees to the meeting. Willard said he knew nothing about a reported move for a "compromise" reduction in the requested \$18,455,176 university budget for the two years starting July 1.

Three new Republican members of the board, elected last November, will be seated in the meeting at which the trustees will choose a new board president succeeding Harold Pogue, Decatur, whose term as a trustee expires this month.

New Trustees
The new trustees are Park Livingston, Chicago; Mrs. Helen Grigsby, Pittsfield, and John R. Fornof, Streator. The board, strongly Democratic since 1939, now is composed of six Democrats and five Republicans.

Retiring from the board in addition to Pogue are Oscar Mayer, Chicago, and Mrs. Glenn Plumb, Chicago. Holdover Democratic members are Homer Mat Adams and O. M. Karraker, Springfield; Frank A. Jensen, LaSalle; Dr. Karl A. Meyer, and James M. Cleary, both of Chicago, and John A. Weiland, superintendent of public instruction, the latter an ex-officio member.

Reports from Champaign named Trustees Livingston and Cleary as prospective candidates for the board presidency.

Establishment of Air Bases on Traded Land Approved by Senators

Washington, March 10—(AP)—The senate approved today establishment of naval air bases on sites acquired from Britain in exchange for United States destroyers, an action which the senate naval committee said would have the effect of "congressional ratification" of the exchange.

The action came when the senate passed a \$245,228,500 authorization for naval public works, including besides the work at the British bases, development of facilities at Guam and Samoa, in the Alaskan area, at various other Pacific locations, in the Canal Zone, in the Caribbean and in Continental United States.

The naval committee reported that of the total, \$58,250,000 represented the amount necessary to complete the establishment of basins on British soil.

The measure goes back to the house for action on senate amendments.

Hearing on State Wage-Hour Law to Open Today

Springfield, Ill., March 10—(AP)—The proposed state wage-hour law will be discussed late today at a hearing before a five-member house industrial affairs sub-committee.

Rep. Robert H. Allison (R-Pekin), sub-committee chairman said it was probable that several sessions would be devoted to hearings on the measure, sponsored by Rep. Edward C. Hunter (D-Rockford), which would apply a 30 cent minimum hourly wage to all intra-state industry.

The bill, supported by the state Federation of Labor and the Congress of Industrial Organizations, was described by Victor A. Olander, executive secretary of the IFL, as a model supplementary proposal designed to spread benefits of the federal wage-hour act to all industry.

THE POST-GAME TABLEAU

Principal Roscoe Eades of Sterling Township high school presented the tournament trophy to Acting-Captain Bill Shultz Saturday with a preliminary speech in which he praised the two teams, their fans and the press for co-operation in making the tournament a success. He expressed the opinion of everyone when he wished both teams well in the week of Section tournament play. In a combined yell by the student sections of both Sterling and Dixon, the event came to a noisy but united end.

BOUQUETS

It is generally acknowledged by the fans of both Sterling and Dixon that Officials Leland Strombom of Sycamore and Roy Johnson of DeKalb did a good job of "calling 'em" in the Sterling Regional tournament and that they did their best to be fair to all. No officiating can satisfy everyone, but the work of the two at Sterling came about as close as any we have seen this season.

SPREADING THE GOOD WORD

A late long distance call went out of Dixon Saturday night with the message: "Sterling 25; Dixon 27" and it gladdened the hearts of six alumni of Dixon high school who are studying at Carlton college at Northfield, Minn. Sharing the excitement were the students: Allen Lancaster, Jeanette Netz, Evelyn Worsley, Alice Hintz, Edward Lampier and Elizabeth Warner to whom the message was sent.

BACKROOM CLUB HOLDS LAST MEETING

The "Backroom club" composed of the officials, coaches and a few ardent fans held its last meeting at the coliseum Saturday night between halves of the championship game. The refreshments this time were on Leland Strombom, one of the tournament officials, and most of the talk naturally centered around the game. One fellow's opinion was that "neither team is really playing basketball, but it's a crack-jerk game, just the same."

A STERLING FAN'S FAITH

Paul Weyrauch who sent us the tournament statistics which you'll find today in another column, had this to say of Saturday night's game: "The fans in Sterling were pretty well down and out about losing. . . Dixon played well enough to win but Sterling still should have won. . . the players and fans were too jittery. . . Sterling still has the better team. . . Good luck to the Dixon in their future ventures in the sectionals. . . you have a great team, but ours is still greater." At which our private inkytype operator stifled a yawn and murmured: "Ho hum, two out of three is pretty decisive."

TOURNAMENT SPECTATORS

Included among the hundreds of Dixon and Sterling fans who saw the game were several from out of town. Among them: Wayne Spenader of Mendota, high scorer of the North Central conference; Jim Trees, coach of the DeKalb basketball team and Bill Welty, Amboy's game mentor.

TO TOUR THE KNIFE AND FORK CIRCUIT

The Dixon Dukes will tour the banquet circuit soon after the tournaments. Several of the fans have already indicated they will take the boys—a chicken dinner here, a hamburger there and a glass of milk to top it off. Parents of the boys should save money within the next few weeks.

SPECIAL BOWLING FEATURE

The Freeport faculty defeated the Sterling "pros" in a special bowling match Saturday morning, 2564 to 2330. Scores for the Sterling keggers, all well known here, were: Hoozee 486; Scheid 461; Terhune 444; Brandau 472 and Moog 467.

GOOD SPORTS

Sterling high school officials, tournament hosts, and most of the city's fans demonstrated that they are doggone good sports following the championship game Saturday. Coach Curtis Brandau was the first to dash over to Coach L. E. Sharpe to congratulate him on victory and there were many sportsmanlike handshakes all around. It was a hard night for Sterling but they demonstrated they can be good losers as well as good winners. Dixon joins in wishing the Brandau-men success this week against Moline and other Sectional foes.

SCORE COMPARISON

In the three games played this year between Dixon and Sterling the Dukes have totaled 105 points as compared to 102 by their opponents. The scores were: Dixon 38; Sterling 32—Dixon 40; Sterling 45—AND DIXON 27; STERLING 25. It's just another indication of the comparative power of the two teams.

DIXON SONS OF LEGION WIN IN DIVISIONAL TILT

Garbed in their undershirts and with crayon-marked numbers on their backs, the Dixon Squadron No. 12, Sons of the American Legion won the divisional S. A. L. championship at DeKalb Saturday night when they defeated the smartly outfitted hosts, 36 to 16, in the final game. It was the first time the champions had ever played together.

In the semi-finals of the divisional tourney played Saturday afternoon, DeKalb defeated Ottawa, 21 to 19 and Dixon routed Westmont, 36 to 31.

Saturday night Westmont defeated Ottawa, 33 to 21, in the consolation game. In the game to decide the championship J. Loftus rang up 11 points for the Dixon winners and W. Knack counted 10. Included on the Dixon team were several high school sophomore players who had to miss the Sterling-Dixon game.

Officials for both games were Cunz and Harrison, both of DeKalb. Accompanying the Dixon team were Burton Woodworth, manager; Peter Phalen, activities chairman; and Legionnaires Earl Pierce and Jay Sipe. The Dixon team meets the champions of the third division in the near future.

BUS CARLSON IS HIGH KEGLER IN WEEK END EVENTS

Locals Lose Four of Five Matches; Other Scores Listed

Dixon may defeat Sterling and the whole town goes mad, but the rest of the world rolls right along and to prove it the local keggers rolled in several matches over the week end. But something must have been on the local keggers' minds for they won only one of five matches with out-of-towners.

Bus Carlson was the star pinman of the week end with a 610 series as the Dixon 21's defeated the National Milling Department of Belvidere there. Carlson had games of 186-204 and 220 to lead his mates while Carlson led the losers with 544. Dixon won the match 2605 to 2326.

In another match at Belvidere the Dixon Recreation lost to the Miller High Life, 2706 to 2676. Leading the locals was Worley with a 166-210-172 count for 548.

The Dixon Recreation Ladies lost their match to the hostesses, 2224 to 2221 with Smith counting 503 to lead her team of Dixon pinwomen.

Poole's Team Loses

Poole's laundry lost to Hamm's Beer at Belvidere, 2769 to 2613. Pacing the locals was Johnson with 560 in games of 164-217 and 179.

In a match game here yesterday the Budweiser Gardens lost to the Fifth Avenue shop of Sterling, 2076 to 1960. Leading the winners was Beightler with 453 while Bonadurer of the Dixon Ladies' League led her team with 409.

The Round-Up defeated Freeman Shoes in an intra-city match Saturday, 2709 to 2602. Leading the winners was Moerschbacher with 517 while Cramer counted 479 for the losers.

Yesterday in a special match game here the Sweeney team of Walton defeated Dick's Tavern of Amboy, 2868 to 2740. Leading the winners was Lally with 486 while Missman counted 484 for the losers.

In sweepstakes bowling in Sterling Frank Daschbach rolled 214-215-166 for 625.

Sweepstakes and match game scores are as follows:

Nat Milling Dept.				
Bartlett	114	166	137	417

Dukes Meet West Rockford Tomorrow Night

Keglers Battle to Break Knots in Two Leagues

With bowling now in its last month of the season's schedule the race for championships of the five Dixon leagues gets as hot a romp under a midsummer sun. Two leagues are all knotted up with two teams sharing the lead in each.

Tonight the program begins with the Ladies' League as the pace-setting Lakeshire Marty quintet meets the Rainbow Inn, one of the two teams tied for second place. Budweiser Gardens, the other second place team meets the Moose Lodge five.

Tomorrow night the Plum Hollow and Myers Royal Blue meet in a "natural" with both teams now tied for first place with 43 wins and 32 losses each.

Williams DeSoto, enjoying a three-game margin over the Sun-kist Pies to lead the Classic League will meet the Hi-Way Grill Wednesday night while the second place pie men clash with Keckley's Beer.

On Thursday night the Round-Up, six games ahead of the Sparky Fenders in the Commercial League, meet the National Tea while the Campbell club tables with Cahill's Electric.

The Friday night league is also knotted with two teams sharing the lead. They are the keggers of the Dixon cafe and Sunnybrook team each of whom has won 48 and lost 30. This week the cafe club meets the Chauffeurs Local and the Sunnybrook quintet meets the Dixon Paint Store, now in third place three games behind the co-leaders.

Ericsson League Against Dictator Power in America
Kewanee, Ill., March 10—(AP)—The John Ericsson Republican League of Illinois today was on record opposing congressional approval of any legislation which would give the president dictatorial powers. Delegates to the organization's annual convention Saturday, prior to hearing addresses by Governor Dwight H. Green and Attorney General George F. Barrett, adopted resolutions opposing "any national legislation which gives the chief executive control of the lives and prosperity of our people." They also approved resolutions advocating protection for both industry and labor in national defense work, approving a strong national defense, and praising Senator Wayland Brooks (R-Ill) for his stand on "anti-war legislation."

Missouri Recount Seems Probable
Jefferson City, Mo., March 10—(AP)—Legislative leaders indicated today Democrat Lawrence McDaniel's petition contesting the election of Gov. Forrest C. Donnell will be laid before the general assembly in joint session tomorrow afternoon. It will be task of the joint assembly to decide whether to investigate McDaniel's charges that voting frauds and irregularities accounted for the Republican executive's 3,613-vote edge in last November's election. In his contest petition filed last Tuesday, McDaniel contended a true recount would give him a plurality "in excess of 30,000 votes."

Britain Takes Control Of All Its Shipyards
London, March 10—(AP)—Labor Minister Ernest Bevin placed shipyard labor under control of the Admiralty today to speed up the building and repairing of ships. His order will facilitate the transfer of skilled labor to places where it is needed most urgently, eliminating the red tape which critics long have said hampered Britain's war effort. Starting tomorrow, all shipbuilding yards will be scheduled as "essential work." A scheduled employer may not dismiss workers except for serious misconduct, and a worker may not quit his job without permission of the district shipyard controller.

Canadian Nurse Heroine of London Cafe Bombing
London, March 10—(AP)—A 23-year-old Canadian nursing sister who used tablecloths for bandages table legs for splints and champagne for antiseptic was hailed today as the heroine of the fashionable west end Cafe de Paris where many persons were killed and injured. She is Nurse H. M. Stevens of Dunville Ont., who was in London on leave and attending a dance at the cafe when a bomb scored a direct hit. Miss Stevens, who was unhurt, pulled herself from the wreckage and plunged into the work of succoring the dying and injured.

Widow of Prominent Chicago Builder Dies
Sarasota, Fla., March 10—(AP)—Mrs. Jessie Browning Adams, 69, member of a colony which came to Sarasota from Scotland in 1885 and widow of a prominent Chicago contractor, died at her winter home here yesterday of a heart attack. Her husband, the late William B. Adams, built the University of Chicago medical center. Survivors include two daughters, Mrs. Alan Buck Deatur, Ill., and Mrs. Gustave Fischer, Pentwater, Mich., and a sister, Mrs. Edwina D. Halliwell, St. Andrews Bay, Fla. The body will be sent to Chicago for funeral services, tentatively set for Wednesday.

Chicago Industrialist Dies Suddenly Today
Chicago, March 10—(AP)—Daniel Peterkin, 68, president of the Morton Salt Company died unexpectedly today at his Chicago residence. A native of Scotland, he came to this country in 1892 and had been a salt merchant since 1896. He was married in 1904 to Jeanette Knights of Chicago, who died three years ago. A son, Daniel Jr., and a daughter, Mrs. William Hunt, survive. Production of salts, lacquers and varnishes in 1,165 factories in the U.S. has an annual value of about \$435,000,000.

Senate Takes Stand on Transfer of Countries
Washington, March 10—(AP)—The senate approved unanimously today a resolution affirming the principle that this government should not recognize the transfer of any region in the western hemisphere from one non-American power to another non-American power. The resolution, proposed by Chairman George (D-Ga.) of the foreign relations committee, provides that if such a transfer appears likely "the United States shall, in addition to other measures, immediately consult with the other American republics to determine upon the steps which should be taken to safeguard their common interests."

Chicago Industrialist Dies Suddenly Today
Chicago, March 10—(AP)—Daniel Peterkin, 68, president of the Morton Salt Company died unexpectedly today at his Chicago residence. A native of Scotland, he came to this country in 1892 and had been a salt merchant since 1896. He was married in 1904 to Jeanette Knights of Chicago, who died three years ago. A son, Daniel Jr., and a daughter, Mrs. William Hunt, survive. Production of salts, lacquers and varnishes in 1,165 factories in the U.S. has an annual value of about \$435,000,000.

Net Cash Balance in Treasury of State Is Mounting
Chicago, March 10—(AP)—The net cash balance of all funds in the Illinois state treasury on March 10—totaling approximately 270 million dollars—was nearly 20 million dollars more than the total on February 1. State Treasurer Warren Wright said in a radio broadcast yesterday. On March 1, Wright said, the net cash balance was \$269,681,405.76, as compared with \$249,781,279.28 on February 1. The balance of "regular funds" on March 1 was \$69,247,798.87, or a gain of \$7,099,459.97, while the net cash balance of the "trust funds" on March 1 was \$209,433,660.89, a gain of \$12,800,666.51. He reported that the balance of the general revenue fund, from which expenditures for current obligations are made, was \$5,234,346.20 an increase of \$693,818.14.

Monthly Accounting
The New Republic treasurer, in keeping with a pledge a month ago that he would give an accounting of his administration every 30 days, spoke over radio station WLS. He also is issuing a printed report each month. "While this is only a slight gain at the best," Wright said, "it is in direct contrast with the steady drain on and the reduced balance of the general revenue fund for months preceding the inauguration of Governor Dwight Green and the new state elective officers who began their administration with him."

Oregon Youths Injured in Crash in Missouri
(Telegraph Special Service)
Oregon, March 10—Three Oregon youths—Howard and Jonas Martin, brothers, and Charles Boyden—were injured Sunday when the automobile in which they were touring in Missouri, was struck by a car emerging from a side road, information received by the Martin boys' parents, Mr. and Mrs. Lawrence Martin, states. The accident happened near Sulphur Springs, Mo., where the boys are in a hospital, and for which city Mr. Martin and Elmer Riley left yesterday. Jonas Martin is reported to have suffered a broken leg and jaw and his brother, Howard, severe lacerations. According to word received here the Boyden youth was not seriously hurt.

Nazi Air
In the fierce series of attacks and counter blows. At the same time, it was said that Gen. Ugo Cavallero, Italian chief of state operations in Albania, had been removed and his post assigned to Gen. Carlo Geloso, 11th army commander. In the simmering Balkans, diplomatic quarters in Belgrade reported Russia was concentrating troops in the Caucasus near Turkey's Asiatic frontier—supposedly as a precaution against the possibility of a German army rolling through Turkey. Both the Turkish and Greek press continued their anti-German tone, as some sources expressed fear a German thrust into Greece, or perhaps Turkey, might be imminent. The Turkish paper, Yeni Sabah, was suspended temporarily by the council of ministers after German Ambassador Franz von Papen complained of the anti-German tone of its editorials. In Africa, British forces apparently were aiming to cut Ethiopia in two. One force driving from Fer-Fer in Italian somaliland covered 145 miles in three days to reach Gabre-Darra in the Ogaden desert.

War Today

strengthen the hands of Greece and Turkey.
Of one thing I feel sure, from study on the ground in Yugoslavia and the rest of the Balkans—any concession which the Yugoslavians make to Germany will be inspired by caution and not by any desire to play the Nazi game. Yugoslavia as a whole is pro-British and has no love for Germany. There is small doubt that had she followed her natural bent she would have been fighting besides the Greeks long ago. So would Turkey.
It isn't surprising that the Belgrade government should hesitate about its course in view of the obvious dangers. Still, Yugoslavia must in the immediate future give a positive answer to the question of whether she shall try to solve her problem by isolation and appeasement or whether she shall adopt the attitude that her security is interlocked with that of her neighbors and that it's a case of one for all and all for one.
Undoubtedly the answer will depend to considerable degree on what Britain has indicated her course will be—how much aid she is going to be able to give Greece if Hitler strikes. She also will be influenced by whether Turkey intends to fight for Greece—a matter of considerable doubt at the moment. But of course the thing cuts two ways, for both Turkey and Britain must temper their steel to some extent in Yugoslavia's fire.
The Yugoslavians also may get some encouragement from the report that Russia is concentrating troops in the Caucasus, a move coincident with the strengthening of the soviet forces along the Russo-Rumanian boundary. The Muscovites are said to be looking to their defenses in event Hitler should strike at Turkey and try to force the Dardanelles. That seems like a logical explanation, though some Turks recently have been fearful that the soviet might strike at Turkey through the Caucasus if Hitler attacked from the north.

Trapped firemen screamed as flames licked at their hands and faces while they were caught in the debris.
Last Rites Administered
A Catholic priest, the Rev. Lawrence Morrissey of St. Patrick's church, borrowed a fireman's helmet and rubber coat and went into the burning building to administer the last rites to the dying and most seriously injured.
Most of those trapped were in the theatre balcony, part of which collapsed under the weight of the snow-laden roof. Several were carried through the balcony floor, where rescuers hurriedly pulled away theatre seats, ceiling plaster and floor timbers to free them.
An eye-witness, Cornelius T. Lyons, a Brockton Enterprise reporter who was standing on the stage of the burning theatre when the roof collapsed, said that two of the dead men, John F. Carroll, 52, and fireman William Murphy, 25, were among those he saw come through the balcony floor.
Fire Lieutenant John Buckley came tumbling through after them, but he remained conscious and talked to his rescuers as they pulled him from the debris and rushed him to the hospital.
Hours later the bodies of Daniel O'Brien, 45, Henry Sullivan, 45, Malcolm McNeil, 40, and Matthew Geary, 48, were taken from the building.

Musicals To Be Presented

Members of the various high school musical organizations will present a program of vocal and instrumental music for members of the Polo Woman's club in the high school auditorium, Tuesday afternoon, March 11.

The program, under the direction of C. E. Rose, instructor in music, will consist of numbers by the high school mixed chorus and the orchestra and the freshman girls quartet composed of Janet Stenmark, Charlotte Boswell, Patricia Clothier and Priscilla Sofey.

Former Polo Woman Featured

Mrs. Edward Stack, of Chicago, the former Ruth Slater of Polo and niece of L. J. Slater and G. A. Slater, was a featured vocalist Saturday night at 9 o'clock when radio station WGN's new program, "The Chicagoland Hour" made its air debut.

Mrs. Stack who uses her maiden name professionally, is the daughter of the late Willis Slater, and has visited in Polo a number of times since she began her radio career.

She was a member of the "Little Brown Church Quartet" heard over WLS at one time and has taken part in numerous other radio musical shows. Her husband was formerly connected with the Chicago Civic Opera and is now engaged in radio work.

Following an address by Col. Robert R. McCormick, editor of The Chicago Tribune on Saturday night's program, Mrs. Stack gave a beautiful rendition of "Old Folks at Home" assisted by the choral group.

High School Spring Concert

Members of the high school music council are making arrangements for the annual spring concert to be given in the school au-

ditorium Sunday, March 16, at 3 o'clock.

of the court. Griesser missed at the gift line on Bugg's third foul and Wolf scored on a long shot from the side of the floor.

The first foul called on Witzleb gave Sterling one more point when John Woodyatt scored at the free throw line. Kelly missed a free shot on Wolf's foul but Witzleb made one when fouled by J. Woodyatt. Wolf scored a free shot on Shank's second foul and Bugg missed one when fouled by Griesser.

Kelly Breaks Monotony
Kelly broke the foul-calling monotony with a field goal under the rim. A fourth foul on Bugg sent the Dixon forward out of the game and Griesser missed the shot. Leeper substituted for Dixon.

Shank missed a free throw on Wolf's foul just before Harry Woodyatt sank a beautiful long one-handed shot. Witzleb scored his second free throw on Duhm's third foul. Just before a fourth foul was called on him, Duhm sank his last and second field goal for Sterling. On his fourth foul Witzleb made good at the gift line. The quarter ended with Ridge missing on a free throw when fouled by Leeper. Dixon 20; Sterling 19.

Shank Scores Long Shot
Shank's long set shot from near mid-court started the scoring of the last and tell-tale period. J. Woodyatt followed with a long shot for Sterling and the score was tied at 22-all, when Ridge sank a free throw on Witzleb's foul. Shank missed at the gift line when fouled by J. Woodyatt. Dixon went into the lead again with Kelly's push-up shot under the bucket. H. Woodyatt missed a free shot on Witzleb's third foul and then his cousin, John tied the score for the third time with a long shot. Witzleb and Shultz missed free throw attempts on fouls by Steadman and Harry Woodyatt. Ridge missed on Kelly's third foul and Shultz missed on H. Woodyatt's violation.

The last and most important bucket of the game came within two minutes of the last gun when Witzleb scored a beautiful shot from the corner of the court. A foul on Arnold was declined by Sterling to take the ball out of

bounds but on a field goal attempt Dixon got the ball on rebound and began stalling with excellent passing.

Double Foul Called
In an effort to break it up a double foul was called on Wolf and Shultz. The Sterling player's was his fourth and he left the game with Substitute Harry Woodyatt making his free throw attempt just after Shultz had made his. It was the final scoring of the game as Dixon declined a free throw on Steadman's foul to take the ball out of bounds and held it to the final gun which spelled championship for Coach L. E. Sharpe's Dixon Dukes.

Conciliators Seek to Forestall Two Detroit Walkouts

Transport Workers Stop Operation of Buses in New York City

By The Associated Press
Federal conciliators sought to head off two threatened strikes in the Detroit area today while transport workers in New York City called a walkout against two bus companies which carrying 875,000 passengers daily.

The C. I. O. United Automobile Workers issued a strike call for today at the Midland Steel Products Company, which makes automobile frames used in army trucks. Conciliator James F. Dewey went to Detroit for a last-minute attempt to bring about a truce.

He also was expected to try to avert a strike which the same union has threatened to call at three Ford Motor plants.

Another conciliator at Detroit, L. F. Rye, said the U. A. W. A. and officials of the Federal Motor Truck Company would resume negotiations tomorrow over differences which caused 350 production workers to walk out Friday.

Another unsettled Detroit strike held up installation of material at the Chrysler army tank arsenal.

Members of C. I. O.'s Transport Workers Union struck against the Fifth Avenue Coach Company and the New York City Omnibus Corporation after rejection of demands for a 25 per cent wage increase, uniform eight-hour day and better working conditions.

In other labor-movement controversies there were these week-end developments:
Week-End Developments
The C. I. O. Steel Workers Organizing Committee notified the U. S. Steel Corporation and its subsidiaries that the union would terminate its contract with them if necessary to obtain a wage increase of 10 cents an hour.

The Office of Production Management said the Allis-Chalmers Company, Milwaukee, had declined to accept in its present form a formula for ending a strike now

47 days old. The company wanted a guarantee that a referee would be named under the plan would have no power to call for the discharge of employees who failed to play union dues.

At South Plainfield, N. J., the A. F. of L. International Brotherhood of Electrical Workers called a strike against the Cornell-Dubilier Corporation plant, which has \$1,500,000 of defense sub-contracts.

Vote on Edison Proposal
The C. I. O. United Electrical, Radio & Machine Workers of America decided to vote tonight on whether to accept a proposal by Thomas A. Edison, Inc., in response to the union's demand for wage increases of 10 cents an hour and overtime rates. Meanwhile, a scheduled one-day strike was postponed.

Officials of the C. I. O. Aluminum Workers of America scheduled another conference with representatives of the Aluminum Company of America over demands for 10 per cent an hour raises and overtime adjustments at the Edgewater, N. J., plant. The union local has authorized a strike.

The C. I. O. Steel Workers Organizing Committee threw a picket line around a Bethlehem Steel Company fabricating plant at Los Angeles which employs 100.

At South Plainfield, N. J., the A. F. of L. International Brotherhood of Electrical Workers called a strike against the Cornell-Dubilier Corporation plant, which has \$1,500,000 of defense sub-contracts.

Vote on Edison Proposal
The C. I. O. United Electrical, Radio & Machine Workers of America decided to vote tonight on whether to accept a proposal by Thomas A. Edison, Inc., in response to the union's demand for wage increases of 10 cents an hour and overtime rates. Meanwhile, a scheduled one-day strike was postponed.

Officials of the C. I. O. Aluminum Workers of America scheduled another conference with representatives of the Aluminum Company of America over demands for 10 per cent an hour raises and overtime adjustments at the Edgewater, N. J., plant. The union local has authorized a strike.

The C. I. O. Steel Workers Organizing Committee threw a picket line around a Bethlehem Steel Company fabricating plant at Los Angeles which employs 100.

Sectional Tourneys Are Next Hurdle for 120 Survivors in State Title Bid

By PAT HARMON
(Written for the Associated Press)

Champaign, Ill., March 10.—Only 120 teams remained in the running today for the state high school basketball championship and they felt none too secure about the start of sectional tournament competition tomorrow night.

The third phase of the 34th annual state elimination series begins in 15 sectional centers. Probably a third of the 120 survivors have season records which mark them as serious contenders for sectional honors. Hope will be high among these schools, but there is always the fear that an outstanding record also may be inviting the opposition to "shoot the works."

Several teams paid the penalty of high rating last week in regional play, the list of victims including Taylorville, East Moline, Gillespie and Johnston City.

Meanwhile, Centralia maintained its 50-points-a-game consistency by overwhelming Ashley, 65 to 22; Soudaval, 53-26, and Salem, 55-16, stretching its winning streak to 37 games. Top favorite of the meet, Centralia hits the road for the Mt. Vernon sectional, playing Pinckneyville in the first round, a victory in this meet would put Centralia back at home for the quarter-final stand next week.

Scoring Ace
Dwight Eddleman, Centralia's scoring ace, piled up 32 points against Salem Saturday night, now having 831 points in 38 games.

Homers and Palestine kept alive their winning strings in the regionals. Homer, which plays Potomac in the Champaign sectional, now has 34 in a row and Palestine, paired with Fairfield at Lawrenceville, is seeking its 34th straight decision. Mattoon, Streator, Peoria Central, Wood River, Hebron and Paris maintained the second-semester scoring spurs which have marked them as strong finishers.

Sterling's winning streak was snapped by Dixon, but this did not prevent the loser from advancing to the sectional, along with all the regional champions and runners-up. Hebron handed Dundee its third defeat of the season in another regional final.

The big twelve conference, long a dominant factor in state basketball, placed all of its members in the sectionals. The suburban league, with four entries and three others not entering the title meet, was the only conference to maintain a clean slate through the regionals.

Other Survivors
There are five survivors from the North Egypt conference, five from the big eight, and four each

from the eastern Illinois, southwestern Illinois Valley and Big Seven groups still fighting for the championship. The Spoon River, Little Seven, Northwest and North Central leagues each sent three teams into the sectionals.

Only 16 of the 120 survivors started in the districts—New Baden, Kansas, Coffeen, Melpin, Palestine, Potomac, Hebron, Braidwood, Cullom, Homer, Byron, Shannon, Stronghurst, Orion, Indianapolis and Sheldon.

CHRISTIAN SCIENCE CHURCHES

"Man" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, March 9.

The Golden Text was, "Beloved, now are we the sons of God, and it doth not yet appear what we shall be: but we know that, when he shall appear, we shall be like him: for we shall see him as he is" (1 John 3:2).

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "And when he was demanded of the Pharisees, when the kingdom of God should come, he answered them and said, The kingdom of God cometh not with observation: Neither shall they say, Lo here! or, Lo there! for, behold, the kingdom of God is within you" (Luke 17:20, 21).

The Lesson-Sermon also included the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "When speaking of God's children, not the children of men, Jesus said, 'The kingdom of God is within you'; that is, Truth and Love reign in the real man, showing that man in God's image is unfallen and eternal. Jesus beheld in Science the perfect man, who appeared to him where sinning mortal man appears to mortals. In this perfect man the Saviour saw God's own likeness, and this correct view of man healed the sick" (p. 476).

American Washing Machine Used for Churns by Dutchmen

Netherlanders Adopt Many Means to Beat Food Rationing

Amsterdam — (Correspondence of the Special News Service—via Berlin)—American washing machines are making butter.

Out in the farming areas, where churns are sealed in accordance with rationing regulations for German-occupied Netherlands, the farmers have discovered that washing machines can be used for other purposes besides cleaning soiled linen.

The American type of machine, fitted with a revolving clothes agitator, has been found to be especially suitable for illicit churning.

Thus some Dutchmen have found a way around the requirement that the milk must be delivered to dairies where the farmer can draw his butter rations. However, all his troubles are not solved as neatly as that. To save fodder, Dutch farmers were ordered to slaughter one out of every five cows by the end of February.

The program to grow more feedstuffs as well as food is being pushed feverishly.

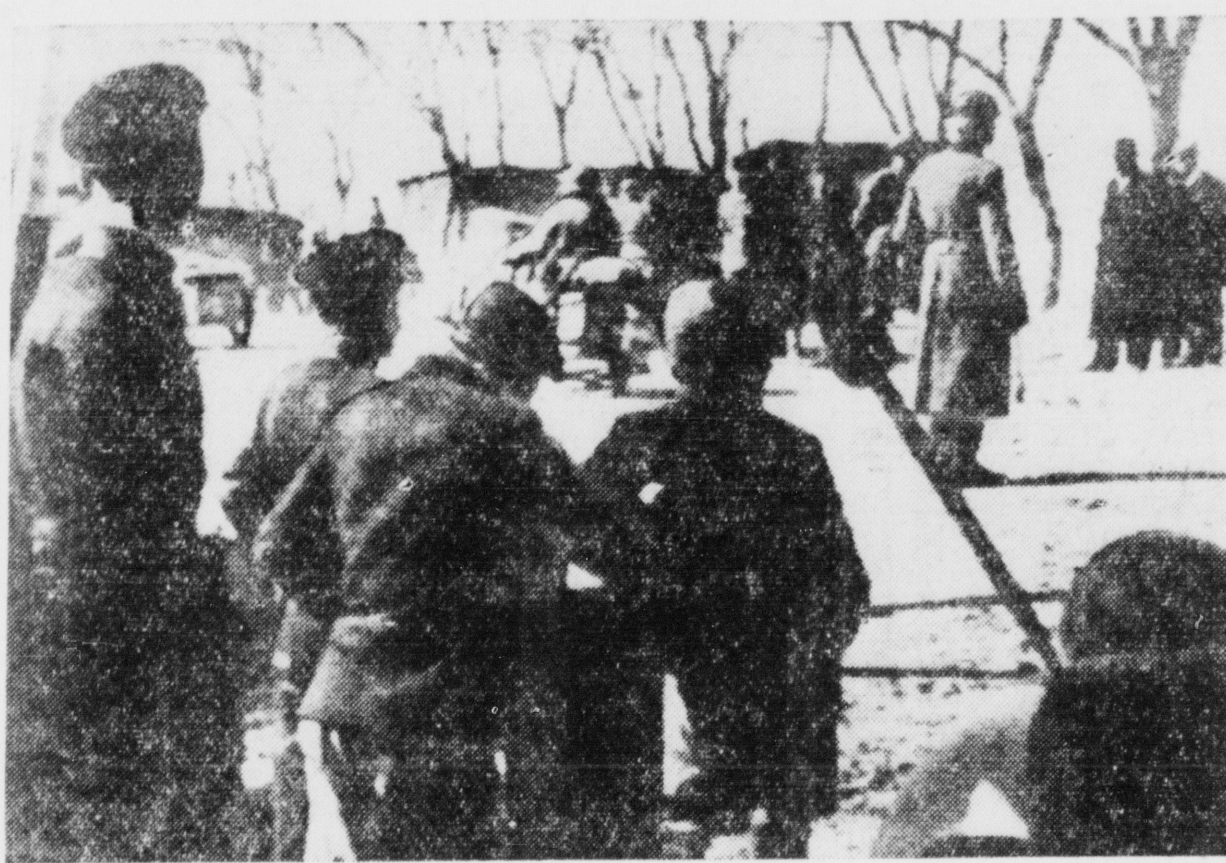

Reclamation of the Zuyder sea has gone forward uninterruptedly. Decreased exports of bulbs have released more land for cultivation of vegetables. The breaking up of pastures for cultivation is encouraged by a premium system. And all available space—in some places even the neutral ground on two-way highways—is being put under the plow and hoe.

But if one meets a perambulator in the road it is not polite to raise the coverlet in anticipation of saying "how cute!"

Smuggling Appears
A quarter of beef or half a porker may be nestling under the coverlet. Unlawful slaughtering and smuggling have made their appearance despite severe penalties.

to-the-farm movement by city folks who are willing to pay a handsome premium for agricultural products. The movement consists of Sunday afternoon jaunts on bicycles, behind perambulators and other conveyances.

There also are dealers "somewhere in the Netherlands" who handle contraband butter, cheese, eggs and meats. All kinds of ruses are practiced to bring the commodities through control lines. Almost daily the newspapers publish stories of seizures by police and condemnations by the courts. New decrees provide heavy penalties for hoarding, smuggling and profiteering.

Windmills at Work

Many windmills which for years served no purpose except the edification of tourists are turning again. Fuel is scarce and expensive, but wind remains free. So the mills are grinding corn. Some farmers who lack gas and electricity have set up small mills for the production of light and power.

An old American institution, the cooking school, is blossoming here. The idea is to be able to take

what materials are available, under wartime conditions, and prepare a palatable, wholesome meal. And the Hollander, as well as his housewife, is taking an active interest in the procedure.

Large stores are giving cooking demonstrations. Newspapers have adopted the American idea of colinary departments. Helpful hints are given on preparing dishes from odds and ends.

The great Mormon temple in Salt Lake City required 40 years to build. It was started in 1853 and completed in 1893 at a cost of more than \$4,000,000.
